EDUCATION

Master of Science in Architecture and Energy

2019-2022

University of Ilam

Ilam, Iran

- **Thesis:** *The effects of heterogeneity in the layout and density of urban blocks on the daylight availability and energy efficiency of buildings*
- **GPA:** 18.69/20 (3.92/4)
- **Advisor:** Dr. Nazanin Nasrollahi

Bachelor of Science in Architecture Engineering

2012-2016

University of Ilam

Ilam, Iran

- **GPA:** 16.94/20 (3.62/4)

PUBLICATIONS

Research Papers

- Rostami, E., & Nasrollahi, N. (2025). *The impact of urban morphology on sunlight availability at urban and neighborhood scales: A systematic review*. Sustainable Cities and Society, 121, 106194. <https://doi.org/10.1016/j.scs.2025.106194>
- Rostami, E., Nasrollahi, N., & Khodakarami, J. (2024). *A comprehensive study of how urban morphological parameters impact the solar potential, energy consumption, and daylight autonomy in canyons and buildings*. Energy and Buildings, 305, 113904. <https://doi.org/10.1016/j.enbuild.2024.113904>
- Nasrollahi, N., & Rostami, E. (2023). *The impacts of urban canyons' morphology on daylight availability and energy consumption of buildings in a hot-summer Mediterranean climate*. Solar Energy, 266, 112181. <https://doi.org/10.1016/j.solener.2023.112181>

RESEARCH PROJECTS

- **Grasshopper Urban Morphology Toolkit (2021-2022)**
Developed in collaboration with Dr. Nazanin Nasrollahi at University of Ilam: Custom Grasshopper algorithms automating urban morphology parameter extraction and analysis, leading to findings published in Energy and Buildings journal.
- **Mobile Measurement Method for Urban Microclimate Analysis (2021)**
Developed under supervision of Dr. Nazanin Nasrollahi at University of Ilam for master's thesis: A mobile measurement methodology using calibrated portable sensors to collect comprehensive microclimate data, revealing correlations between urban morphology, solar potential, and thermal comfort in Ilam, Iran.
- **3D Urban Modeling without GIS Data (2021)**
Created as part of master's thesis research at University of Ilam: A high-fidelity 3D model of approximately 2,500 buildings in Ilam's urban core enabling detailed solar potential and energy consumption simulations in areas lacking GIS resources.

ACADEMIC CONTRIBUTIONS

Peer Reviewer

- Conducted peer reviews for high-impact journals, including *Energy and Buildings*, *Building and Environment*, and *Frontiers of Architectural Research*, contributing to advancing energy and architectural research.

RELATED COURSES

Graduate

- Energy and Architectural Design
- Energy and Urban Design
- Passive and Active Systems
- Measurement Systems and Optimizing of Existing Buildings
- Heat Transfer
- Energy Analysis
- Energy Management

Undergraduate

- Architectural Design
- Urban Space Planning
- Urban Space Design
- Restoration of Monuments
- Rural Research & Design
- History of Architecture
- Construction Project Management
- Building Construction
- Surveying
- Environmental Control of Building
- Building Technical Design
- Building Mechanical Services
- Strength of Materials and Steel Structures
- Reinforced Concrete Building Design

Online Courses

- Nature-based Solutions for Disaster and Climate Resilience (Apr 2025)
- Sustainable Cities (Jun 2023)
- Contemporary arts and communication (Jun 2022)
- Solar Energy for Engineers, Architects, and Code Inspectors (May 2022)
- Global Energy and Climate Policy (Dec 2021)
- Autodesk Certified Professional: AutoCAD for Design and Drafting Exam Prep (Nov 2021)
- BIM Application for Engineers (Nov 2021)
- Autodesk Certified Professional: Revit for Architectural Design Exam Prep (Oct 2021)
- Design Computing: 3D Modeling in Rhinoceros with Python/Rhinoscript (Oct 2021)
- Renewable Energy and Green Building Entrepreneurship (Oct 2021)

HONORS & AWARDS

- Best Graduate Student Issued by Ilam University (Nov 2022)

SKILLS

Programming Skills

- Python, R, PHP, HTML, CSS

Building and Urban Performance Simulation/Analysis

- EnergyPlus, Ladybug Tools, Pollination, OpenStudio, ClimateStudio, UMI, DIALux, DesignBuilder, Envi-Met, RayMan, ArcGIS, CitySim

2D/3D Modelling and BIM

- Rhinoceros 3D, Grasshopper 3D, Revit Architecture, Autodesk Navisworks, 3Ds Max/VRAY, Lumion, SketchUp, AutoCAD

Non-Engineering Software Skills

- IBM SPSS Statistics, Adobe Photoshop, Microsoft Project, Camtasia, WordPress, Joomla, LATEX, Endnote

Language

- Kurdish: Native
- Persian: Native
- English: Professional working proficiency
